

NerveReform[®]

Enhance Cognitive Ability & Resist Brain Degeneration

Suitable for people have concerns on brain health, and memory impairment

- Inhibit or resist harmful brain degeneration-related factors including brain damage induced by “soluble A β oligomers”.
- Promote healthy synaptic functioning in the brain.
- Improve and enhance learning, memory, and cognitive skills.

VascuReform[®]

Protect Cerebrovascular Function & Improve Rehabilitation

Suitable for people have concerns on brain health, and stroke

- Protect blood vessels in the brain.
- Reduce damage to neurons caused by hypoxia.
- Help accelerate the recovery of damaged brain cells.

MotionReform[®]

Improve Brain Functioning & Coordination

Suitable for people have concerns on brain health, and motor impairment

- Inhibit and reduce the risk of neuronal damage induced by “ α -synuclein”, a causative factor of Parkinson’s disease.
- Protect dopaminergic brain cells.
- Alleviate the imbalance between motor neurons and physical activity.

Note: Product ingredients showed positive effects in different research experimental models, including: aging, Alzheimer’s disease, Parkinson’s disease, and stroke.
